This stock has come through the recent depression with a better all-around record than any of our older seasoned securities. Since 1915 we have recommended this as one of the best, if not the best, of all of our local investments.

It has not missed a quarterly dividend of \$1.75 per share since its issue; its earnings are steady and safe but growing, and assure a still more prolitable future. The stock is readily marketable, both here and in the east, and has the highest collateral loan value with us and with all banks. We believe the stock will easily sell about \$190 again and strongly advise its purchase by all classes of investors.
